SHOWA 377

The 377 is a durable glove with a double layer of nitrile foam on the palm. The foam coating helps to disperse oil and improve the grip in wet, dry, or oily conditions. The nitrile foam coating allows you to handle the most challenging tasks with ease, even in the slipperiest situations. The glove has a seamless liner and an elastic cuff that prevent dirt and debris from entering the glove while keeping your hands warm and safe.

BENEFITS

- Water-resistant
- Flexible
- Form-fitting
- Breathable
